INDEX

Journal of Soil and Water Conservation Index to Volume 57

(a) means this is listed in abstract form only

Aase, J.K. (*see* Bjorneberg, D.L.)
ABI (Association for Biodiversity Information)
name change to NatureServe, 11A
Adams, J. (*see* Kraft, S.)
Adelman, D. (and T. Schemper), Stochastic simulation of pesticide runoff from a watershed in rural Nebraska, 311(a)
Adkins, M. (*see* Heilman, P.)
Agapoff, J. (and M. Ribaudo and N. Gollehon), Land application of manure by animal feeding operations: Is more land needed?, 289(a)
(*see also* Aillery, M.)
aggregate stability
influence of CRP, 344
agricultural management
comparison of conservation production systems, 229
ENWATBAL model improved, 141A
estimating losses in soluble phosphorus, 312(a)
impact on soil carbon storage on cropland, 196
limitations of GIS, 110A
Agricultural NonPoint Source Pollution model
assessing runoff, sediment yield, 351
agricultural policy
2002 Farm Bill, 78A, 80A, 82A, 111A, 144A
changes in CRP signup, 115A
considering future landscape scenarios, 36A
Farm Security and Rural Investment Act of 2002, 84A
impact of NAFTA, 112A
nutrient management for Ontario, 287(a)
USDA: Taking Stock of the New Century, 80A
Agricultural Research Service experimental watersheds
Goodwin Creek, 320(a)
Little Washita River, 326(a)
Mahantango Creek, 323(a)
North Appalachian, 324(a)
OPE3, 323(a)
Reisel, 322(a)
Reynolds Creek, 322(a)
Walnut Gulch and Santa Rita, 322(a)
Watershed Research Program, 321(a)
Agricultural Reserve Program
farmland preservation, 294(a)
agricultural systems
behavior of nitrogen in, 402
behavior of phosphorus in, 408
quantifying P loss from, 399
agriculture, urban, 141A, 301(a), 302(a)
(*see also* precision agriculture)
agroforestry
diversification for sustainability, 148A
Ahuja, L. (*see* Heilman, P.)
Aillery, M. (and N. Gollehon, M. Ribaudo, V. Breneman and J. Agapoff), Competition for land to spread manure under changing water-quality guidelines, 297(a)
Ajwa, H. (and T. Trout), Polyacrylamide effect on infiltration of various quality water, 306(a)
(*see also* Trout, T.)
Al-Kaisi, M. (and R.M. Waskom), Utilizing swine effluent for sprinkler-irrigated corn production, 111
Al-Kaisi, M. (and W. Dittmer), Impact of nitrogen and tillage management on soil carbon dynamics, 316(a)
Alberta
agricultural information management, 295(a)
Alberts, E.E. (and F. Ghidey and L.A. Kramer), Effectiveness of stiff-stemmed grass hedges in reducing sediment yield from a row-cropped watershed, 298(a)
(*see also* Rachman, A.)
Aldrich, B. (and E. Chamberlain, D. Drewes, S. Eck-Jones, K. Holmstrom, J. Ingerson-Mahar, G. Jones, F. Kelly, D. Kluchinski, P. Nitzsche, J. Stutzman and W. Tietjen), the Lower Musconetcong Water Quality Incentive Program in New Jersey, 298(a)
alliances (*see* partnerships)
Allmaras, R.R. (*see* Reicosky, D.C.)
Alonso, C.V., Long term, remote hydro-meteorological observations on the ARS Goodwin Creek experimental watershed, 320(a)
(*see also* Langendoen, E.J.)
Amish farms
managing NSP, 287(a)
Anderson, A.B. (*see* Gertner, G.)
Anderson, R.L. (*see* Bowman, R.A.)
Anderson, S.H. (*see* Rachman, A.)
animal waste
alternative strategies with conservation tillage, 221
Animal Manure Potential Pollution Index, 373
competition for land to spread manure, 297(a)
managing runoff after manure application, 530
manure management, 289(a), 294(a), 315(a)
mineralization of nutrients, 470
nitrogen leaching index, 499
nutrient management and custom applicators, 313(a)
nutrient variability in, 473
PAM and manure liquid-solid separation, 306(a)
regional database, 473
apparent conductivity
for locating sand blows in alluvial soils, 175
Argentina
landscape, surface runoff and groundwater quality, 192
Arnold, J.G. (*see* King, K.W.)
Arof, A.K. (*see* Saad, I.A.A.)
arroyo cutting
and semiarid stream degradation, 250
Aschmann, S.G. (and R.M. Caldwell), Low cost tools for precision farming, 312(a)
Ascough, J., II (*see* Popp, J.)
Association for Biodiversity Information
name change to NatureServe, 11A
Atkinson, M. (*see* Crabtree, G.)
Atwood, J.D (and R.L. Kellogg, S.R. Potter

coliform bacteria
PAM for removal in irrigated pastures, 304(a)
TMDLs of fecal coliforms in Virginia, 286(a)
Collins, M., Grazinglands monitoring manual, 317(a)
Collison, A. (and A. Simon, S. Bennett and R. Kuhnle), Erosion control and stream restoration in riparian corridors: Process-based research and tools, 321(a)
(*see also* Kuhnle, R.; Langendoen, E.J.)
Colvin, T.S. (*see* Dinnes, D.L.)
communication
evaluation of channels in education programs, 301(a)
community planning
local attitudes toward protecting environment/farmland, 295(a)
NFF Community Assistance Program, 142A
compaction
effect of tillage and rainfall on soil strength, 317(a)
composite sampler
Coshocton wheel with modified drop-box weir, 364
composts
mineralization of manure nutrients, 470
concentrated flow
for determining erodibility coefficients, 272
through riparian buffers, 336
conflict resolution
manure management and farm-neighbor relations, 294(a)
conservation
2002 Farm Bill , 78A, 82A, 84A
alliances for profitability, 315(a)
comparison of production systems, 229
comprehensive planning on National Wildlife Refuges, 309(a)
educational programs for that accommodate growth, 310(a)
investment in technical services, 28A
mastering the craft of, 108A
Michigan voters to decide on funding, 85A
Native American methods, 250
natural resources health indicators, 319(a)
program implementation, 80A
project to investigate implications of climate change, 22A
quantifying, 136A
for sustainable ecological processes on non-federal lands, 308(a)
conservation buffers
improving water, soil quality, 36A
use encouraged after SWCS national workshop, 10A, 22A
conservation organizations, American participation in, 8A
conservation planning
managing runoff after manure application, 530
conservation policies
targeting for sustainability, 66
Conservation Reserve Program
changes due to new farm legislation, 115A
Conservation Reserve Enhancement Program, 310(a), 316(a)
EBI as indicator of riparian ecosystems services, 288(a)
factoids, 33A
measuring progress of Buffer Program, 318(a)
soil organic C in conversion back to cropland, 121

soil quality of two Kansas soils, 344
conservation tillage
alternative strategies for manure application, 221
cost effectiveness of BMPs, 259
contaminated land
environmental significance Cd and Pb in soils, 311(a)
